

SPOTLIGHT

Spotlight: Elegant Catering

For Immediate Release
Thursday, September 30, 2004

Naples, Florida –

Elegant Catering, in Denver, Colorado, is a special event caterer that sets the standard for catered events in the Centennial State. This exceptional facility offers high-quality services ranging from custom catering to professional event planning, and specializes in customized menus that exceed every client's expectations.

The company's menus range from the simple to the very extravagant, including anything from hors d'oeuvres to full, sit-down meals. While their many authentic multi-cultural dishes can make for a unique culinary experience, Elegant's specialty is "custom lighted buffets" – signature buffets created by their own setup designers.

"With so much focus on custom-designed menus," says Sherri Coffey, sales representative at Caterease Software, "Elegant Catering needed software program that offers a lot of flexibility."

Caterease, the event management software industry leader, was the perfect choice.

"Flexibility is one of the reasons our program is so popular," explains Coffey. "Very little in our program is hard-coded. Not only can users create and modify limitless custom menus easily, they can also rename fields, rearrange screen displays – even redesign their prints!"

In addition to allowing users to create custom menus, Caterease also cuts down on repetitive work by offering tools such as copying menus from event to event, or even copying entire events – a feature that has greatly helped the staff at Elegant Catering.

"We regularly use the copy event tool," says Joyce Robinson, owner of Elegant Catering. "It saves us lots of time with our regular contracted customers."

Elegant Catering also prides itself on its extraordinary, professional staff, which has been trained to fulfill a client's every need. Whether customers are planning a corporate function, a private party, a wedding or even an exciting "themed" event, they receive incomparable service from every exceptional Elegant Catering employee. This type of service requires special attention, and is made easier through the use of some powerful Caterease tools.

"Caterease makes staffing an event incredibly easy," notes Coffey. "It automatically calculates wages, and instantly guards against any employee conflicts. But the folks at

Elegant Catering really like the way we allow them to quickly communicate with their employees through the use of reminders and contact history notes.”

“We love the reminder tool,” Robinson agrees, referring to the Caterease feature allowing users to create reminders for one another. “We’re extremely happy with that, and with so many other brilliant Caterease software developments.”

As the premier catered event planner in Colorado, Elegant Catering is renowned for its commitment to unparalleled style and elegance, and its unwavering focus on customer satisfaction. In Caterease Software, they have found a software solution that shares that dedication.
