

SPOTLIGHT

Spotlight: Windows Off Washington

For Immediate Release
Monday, October 25, 2004

Naples, Florida –

Windows Off Washington catering and event center, located on 15th Street in St. Louis, MO, offers everything you could want for any special event.

Housed in a historic shoe factory, WOW (which is the company's exceedingly appropriate acronym) has preserved many of the building's original charming features in its three sizeable dining rooms. An impressive bar is designed around a large, old steam pipe and boasts a beautiful terracotta cornice backdrop saved from a public school demolition; a spacious and scenic verandah invites guests outside to enjoy the view and quiet conversation; "shoe chutes" in the corridor stand as monuments to the days when the factory was bustling with workday activity.

In addition to this one-of-a-kind venue, Windows Off Washington also offers a wide variety of menu choices, suitable for both the casual affair and the elegant gala. Hot and cold Hors D'Oeuvres, sumptuous salads and deluxe entrees are complemented by the finest accompaniments and desserts, all prepared by some of the best chefs in St. Louis.

Recently, Windows Off Washington selected Caterease Software to help them manage their premier establishment. With its user-friendly design and meticulous attention to detail, Caterease was the perfect choice.

"Windows Off Washington gives their customers a strong sense of confidence that every need will be met," says Sherri Coffey, Caterease Sales Representative. "They were looking for the same feeling themselves from a software program.

"In ten short years their business has grown to two locations in Saint Louis, and they're looking to expand into other cities," Coffey adds. "With that kind of volume, they needed the kind of management tools that get rid of the day-to-day minutia."

Such tools are the foundation of Caterease, a state-of-the-art program that offers busy event managers a way to simplify their hectic workdays. Its primary purpose, Coffey points out, is to cut down on repetitive tasks and to keep track of detailed event information.

"The folks at Windows Off Washington loved what they saw in our software," Coffey says. "They recognized that we take as much pride in our product and services as they do in theirs."

For event planners and caterers around the world, the words “Caterease” and “WOW” have long had an association. For the people of St. Louis, MO, that connection just took on a much more literal twist.
