

PRESS RELEASE

Caterease Releases Revolutionary Version 8.5

For Immediate Release
Tuesday, January 24, 2006

Naples, Florida –

Caterease Catering and Event Management Software recently released its powerful new upgrade, Version 8.5 – demonstrating once again why Caterease is the undisputed industry leader.

“With Version 8.5,” says Tom Jewell, Caterease Director of Sales, “we’re building on the amazing advancements we made on 8.0 and 8.2. It has the same incredibly user-friendly design, with even more advanced features.”

Among those features added recently to this already robust program are several new queries and reports, a year-at-a-glance event scheduler view, a customizable deposit schedule, and much, much more. The familiar, attractive displays have been enhanced to reflect the same soft colors of the user’s Windows color scheme, with the new default look being an attractive pale blue.

“There so many exciting new features in this version of the program,” says Chris Kopriva, Caterease Director of Training. “and many other popular features have been enhanced and improved.”

As an example, Kopriva points to the Event Sheet Report, perhaps the most popular report in the program. “This report has always been flexible,” he explains, “allowing users to show all events scheduled for any date range. But with Caterease 8.5, they now have the ability to completely customize this report to show whatever details they want to see. Same great report – total flexibility!”

In addition, Jewell highlights the new Deposits Schedule – which allows users to create custom schedules of deposits automatically for any event – and Staffing Activity Query – the latest powerful querying feature in the program.

“Once again,” Jewell notes, “Caterease takes a product that is already the most significant and most feature-rich in its class, and improves upon it. We continue to find ways to make life easier for busy event planners, and continue to add features that reflect their day-to-day needs.”

And this progressive software company continues, with each revolutionary upgrade of its remarkable program, to completely dominate the catering and event management software industry.

About Caterease Software

Caterease Software, developed by Horizon Business Services, Inc., is a comprehensive event management program unparalleled in the hospitality industry. For more than a decade, event management professionals of all sizes – from independent restaurants and caterers to large hotel chains and conference centers – have come to rely on the power and user-friendliness that Caterease is known for.

Designed in conjunction with experts in the hospitality industry, Caterease offers the perfect blend of essential features and an attractive, easy-to-use layout. With more flexibility than any other software, Caterease even allows the end user to redesign the program to perfectly fit his or her specific business needs. Caterease is truly automation made easy, and is the ideal solution for the hectic world of catering and event management.
