Configuring Android Phone or Tablet for Caterease Connect
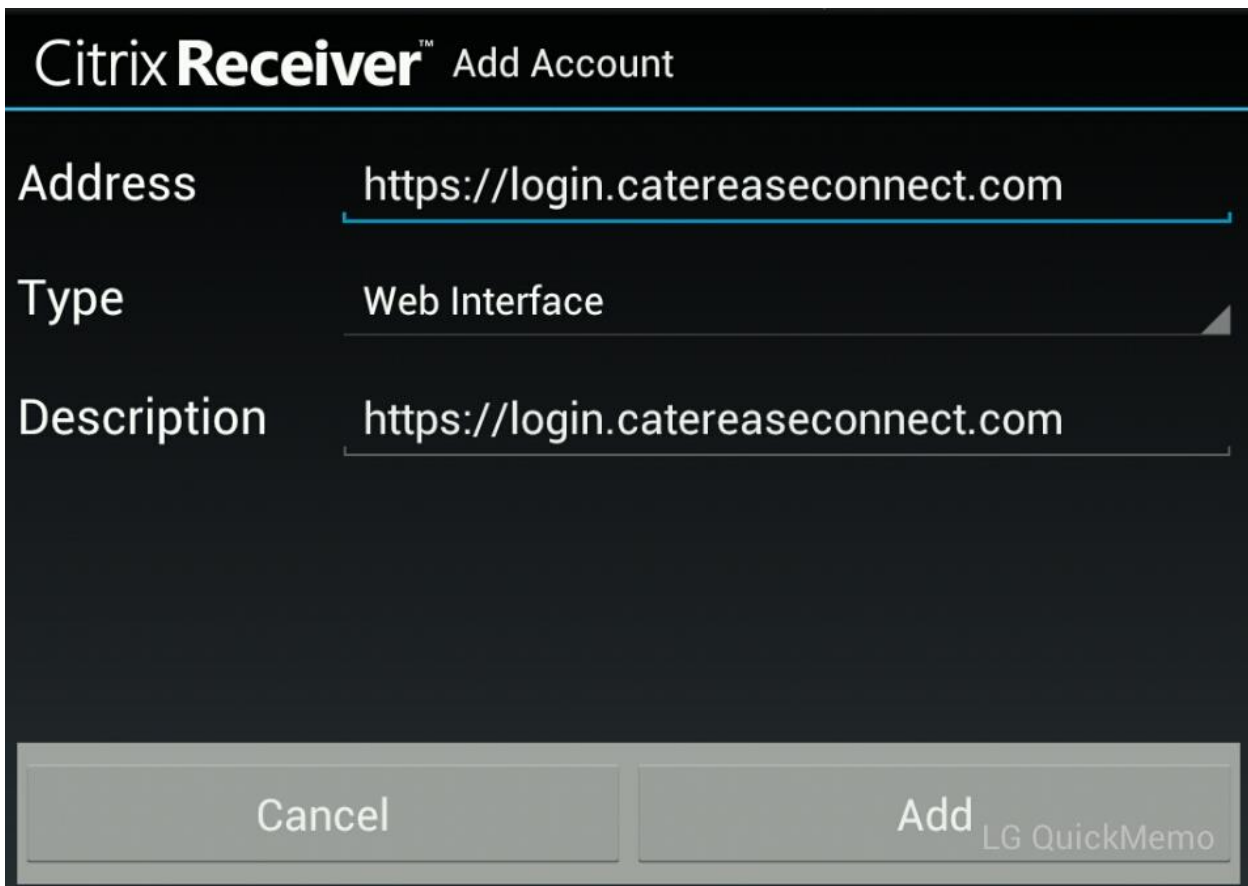

This document will assist you in configuring your Android Mobile Device for use with Caterease Connect. Access to Caterease Connect via mobile devices is provided as a no-charge option and it not covered under the standard Caterease Connect Service Level Agreement.

1) Open the **play store** and search for **Citrix receiver** (free app), Download and install

2) Locate and launch the app from your device.

3) At the welcome screen choose **"Set up My Enterprise app". You will be asked for a server Address, click on that to do manual setup and you will get this screen below.**

4) When prompted for an address, type: **https://login.catereaseconnect.com**

5) When prompted for a Type, type: **Choose Web Interface**

6) Click Add.

The screen below is how the app will look each time you open.

7) When tap the connection, you will be prompted for your Caterease Connect User Name.
   * Note: This is the same user account you use for your computer

* Note: We recommend running Caterease in Landscape mode if available on your device.
